

# Evaluation Rubric for Cape Verde Presentation and Display

Student Name \_\_\_\_\_ Date \_\_\_\_\_

**Assignment** An oral presentation 7 to 10 minutes long, and visual display

**Topic** A method of conserving or obtaining fresh water in Cape Verde

## Requirements

- Each group will concentrate on one particular method used in Cape Verde, as demonstrated by the photos and stories we have studied.
- Each presentation should include a cost/benefit analysis for a particular method, which includes the strong points and weaknesses of expanding this method in Cape Verde to obtain more fresh water.
- Each group is responsible for material cited in the rubric.
- Two minutes of the presentation time will be used for questions from the audience, who will be assuming the role of various parties interested in obtaining fresh water in Cape Verde.

Area	Points	Descriptor
<b>Content Accuracy</b>	<b>30</b>	The students <ul style="list-style-type: none"> <li>• Accurately presented important, related information on the presentation and the display.</li> <li>• Included a cost/benefit analysis for the method.</li> <li>• Presented information on the historical context and future possibilities (new technologies) for the method.</li> </ul>
