OPTION 2: Field Exception to Direct and Immediate Return

I, _____, Peace Corps Volunteer, have been granted an exception to the direct and immediate return travel requirement.

I agree to travel on my Peace Corps no-fee passport to exit my country of service. I understand that my no-fee passport is not to be used for any additional personal travel between countries.

I understand that the Peace Corps will provide me with a ticket to my home-of-record (or equivalent value) but will not provide me with any travel allowances. I also understand that once I have been given the ticket (or equivalent value) for my return transportation and my service has been terminated, the Peace Corps is not responsible for my return travel.

I understand that the Peace Corps will not be responsible for my medical care after termination of my service. I understand that Peace Corps recommends that I purchase private health and accident insurance, as well as personal article insurance. I also understand that the Country Director may require me to depart the host country via the quickest appropriate means if there is a risk to my personal safety, or if it is requested by the host country.

I have received an air ticket (or equivalent value) from the Peace Corps for the cost of my air transportation to my home-of-record:

I understand that my no-fee passport will be cancelled at the end of my service and that it may only be used to exit my country of service. A personal passport must be used to enter and exit other countries thereafter. I understand that the Peace Corps will not be responsible for my medical care after termination. I have been advised that I should obtain medical, accident and personal article insurance after termination of my Peace Corps service.
