- (e) HIPAA Privacy Rule, 45 CFR Parts 160 and 164.

## 3.0 Definitions

For purposes of this Manual Section:

**3.1** The terms “*consent*” and “*authorization*” are interchangeable.

**3.2** “*Need to know*” means, with respect to particular information, that access by an individual to that particular information is useful in, or facilitates the efficient performance of, that individual’s official Peace Corps duties.

**3.3 “Protected health information”** includes any information relating to the past, present or future physical or mental health or condition of a Volunteer, the provision of health care to such Volunteer or the past, present or future payment for the provision of health care to such Volunteer which is contained in such Volunteer’s Peace Corps health record or which has otherwise been created or received by staff in the Office of Health Services, a Peace Corps Medical Officer (PCMO), or another health care provider or professional providing care to a Volunteer.

**3.4 “Protected Volunteer information”** means:

- (a) any Protected health information;
- (b) information relating to a sexual assault committed against a Volunteer as set out in MS 243 *Responding to Sexual Assault*;
- (c) any information relating to an allegation or concern reported by a Volunteer pursuant to MS 271 *Volunteer/Trainee Whistleblower Protection*;
- (d) information related to stalking of a Volunteer, as set out in MS 241 *Stalking*; and
- (e) any other category of Sensitive Volunteer information that requires special protection and is designated as Protected Volunteer information in any Peace Corps Manual Section or the additional guidance referred to in paragraph 7.0.

**3.5 “Public Volunteer Information”** means the name, country of service and dates of service for a current or former Peace Corps Volunteer or Trainee. This information is considered public information and may be disclosed to any person upon request and to the public as the Peace Corps deems appropriate. No information about an applicant is Public Volunteer information.

**3.6 “Sensitive Volunteer information”** means any information regarding a Volunteer that, were it contained in an agency record, would be exempt from disclosure under the Freedom of Information Act, 5 USC 552(b)(6), as “personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.” “Sensitive Volunteer information” includes, but is not limited to, any information regarding a Volunteer that is contained in a Privacy Act system of records and not subject to disclosure to the public generally. In general, Sensitive Volunteer information consists of any information regarding a Volunteer other than the Volunteer’s name, country of service, and dates of service. Examples include (but are not limited to) a Volunteer’s contact information, information about a Volunteer’s conduct, information about the quality of a Volunteer’s performance, a Volunteer’s travel plans or location, and ability to perform Peace Corps assignments or other activities.

**3.7 “Specific need to know”** means, with respect to particular information, that a Peace Corps staff member is unable to perform a specific task that is part of that individual’s official Peace Corps duties without knowledge of that particular information.

**3.8 “Staff members”** includes Peace Corps employees, contractors, consultants, interns and others providing voluntary services. It does not include Volunteers or Volunteer Leaders.

**3.9 “Volunteer”** includes a Trainee, a Volunteer, a returned Volunteer or, as appropriate, an applicant for Peace Corps Volunteer service.

## **4.0 Policies**
